Spend a week in Florida!

Our home is in the National Historic District of Orange City, a quaint town in central Florida where the clock still chimes the hours. Accommodations for 4 include 2 Bedrooms and 1 Bath - 7 rooms in all - part of a rambling 150 year old Victorian house with antique furnishings and ceiling fans throughout, roomy porches, and a large shady yard. This is a naturalist's dream with fruiting trees, tropical plants, and a backyard azalea garden. Abundant wildlife, especially birds, are frequent visitors. Nearby Blue Springs State Park is winter home to 250+ manatees and a delight for snorkelers and scuba divers. Make it a point to be outside at sunset --- this area prides itself on being the REAL Florida! Our library shelves boast many identification books, as well as historical information and Florida tales. It's a great place to relax, with convenient kitchen and many restaurants nearby. There are maps and menus in a visitors folder so you can find your way around. Other points of interest are Daytona and New Smyrna Beaches (½ hr.), Disney World/Orlando attractions (1 hr.), Kennedy Space Center (1 hr.), Merritt Island Wildlife Refuge (1 hr.), Blue Springs and St. Johns River (10 min.) **Oriental Medicine Associates
Initial Consultation and First
Acupuncture Treatment**

Acupuncture is a 3000 year old practice of Chinese medicine. It entails the gentle insertion of very fine needles into specific parts of the body to prevent and treat disease and enhance the body's natural healing ability. In the West, acupuncture is most well-known for its ability to relieve pain. Acupuncture points are now believed to stimulate the central nervous system (the brain and spinal cord) to release pain-relieving chemicals into the muscles, spinal cord and brain. It may also stimulate other chemicals to be released by the brain, including hormones that influence the self-regulating system of the body. \$145 value
